## SUMMARY

I'm a Junior full-stack developer with skills in front-end and back-end technologies, including React.js, Javascript, WordPress, HTML5, CSS3, Node.js, Express.js, Python, Salesforce, SQL and NoSQL databases. I want to get as much knowledge as possible of OOP principles, Object-oriented Best Practices, Behaviors, and Encapsulated Class Data to write clean, maintainable and high-quality code.

## WORK EXPERIENCE

### Trainee

*Globant, São Paulo | Dec 2021 - July 2022*

It was a remote position our team was driven by a supervisor and Globers from worldwide to work together in order to learn SAP but 3 months later we were relocated to learn Salesforce Lightning Platform Architecture to develop and design Custom apps in Salesforce platform.

**Salesforce Experience:** - Trail Developer Beginner - Platform Development Basics - Data Modeling - Data Management - Data Security - Formulas and Validations - Salesforce Flow - Salesforce Mobile App Customization - Apex Basics & Database (SOQL - SOSL) - Apex Triggers, Apex Testing - Developer Console Basics, Search Solution Basics - Process Builder

**Trailblazer id:** <https://trailblazer.me/id/dmendesdealbuquerque>

## EDUCATION

### B.S. Computer Science

Nove de Julho University - São Paulo, SP  
June 2017 - June 2021

## CERTIFICATIONS

### Coursera: Python for Data Science and AI (nov 2022)

The basic Python data structures: list, set, tuples, and dictionary with core libraries for data science (matplotlib, Numpy, Pandas)

### Coursera: REST APIs with Flask and Python (nov 2022)

*REST APIs with Python, Flask, Docker, Flask-Smorest, and Flask-SQLAlchemy*

## PROJECTS

**React-Movie-Project:** Written in React.js, Node.js - Basic application using API data from omdbapi.com, some react hooks, and CSS3 properties for a fully mobile responsive page.  
<https://github.com/DanielAlbuquerque/React-Movie-Project>

**Form Page:** Written in HTML5, CSS, and Javascript used to validate input values.  
[https://github.com/DanielAlbuquerque/Form\\_Project](https://github.com/DanielAlbuquerque/Form_Project)

**Gallery Page:** Written in HTML5, CSS3, and SASS - The main focus of this project was to explore CSS3 and Sass syntaxes.  
[https://danielalbuquerque.github.io/Gallery\\_project/](https://danielalbuquerque.github.io/Gallery_project/)

**My Suggestion to Spotify** - For a better UX and a successful experience.  
See this project: <https://danielalbuquerque.github.io/SpotifyProject/>  
Do you think it might be a better idea?

**Online Store** - Around 2020 to 2021 My friends and I decided to open a dropshipping store using WordPress, ElementorPro, Woocommerce, and external plugins. With these scenarios, we learned about SEO, Copyright, Facebook ads - Facebook Pixel, Ecommerce Sales Funnel. We don't have this website anymore but it was a huge experience.
